AERA is.....
One Voice
One Association
Working For You

Dear Retiree,

Congratulations on your retirement!

As a new retiree, you are invited to join the Alabama Education Retirees Association, the retired division of AEA! An enrollment form is enclosed, and we would love to have you join. Your membership investment of only **\$11.76** (with AVOTE) or **\$8.76** (without AVOTE) per month makes us stronger and better able to work with legislators to protect your hard-earned benefits.

AERA/AEA is the **ONLY** protector of your hard-earned retirement and health insurance benefits. AERA/AEA needs and appreciates your support as we work to protect your benefits.

Did you know that the health insurance for retirees is funded with state dollars controlled by the Alabama Legislature and Governor? During the Legislative Session, AERA/AEA worked on your behalf at the legislature to secure adequate PEEHIP and TRS funding.

With association membership, we will keep YOU informed on YOUR issues. AEA sends members a bi-weekly publication during the Legislative Session, *The Alabama School Journal*. It has up-to-the-minute news on legislative activity. When the legislature is not in session, you will find information in the *Journal* about both PEEHIP and retirement funding issues. AERA also publishes its own magazine, *The AERA Voice!* It is designed to meet education retirees' needs and interests and is issued bi-monthly.

There is strength in numbers, and your membership will strengthen us. We cannot do this without your membership and support. We look forward to your participation today!

Sincerely,

A handwritten signature in black ink that reads "Jill E. Jackson".

Jill E. Jackson
AERA Executive Director
